Hui:

I apologize for the delay; the BID staff has been preoccupied with other projects, but will be able to turn its attention to these and the other Melrose-related petitions.

Thanks!

Subject: Re: Melrose BID Requests - new parking meter installation

Good morning,

We wanted to follow up with you for a status on these requests. Petitions were sent out to you for processing in October 2015 (see below & attached). These requests are currently on hold because we haven't received a reply from you.

Please let us know if there are any questions or if you wish to cancel any of the requests. To keep good administrative record, we generally close requests that are on hold for more than 90 days with zero activity. Thank you for your help.

Sincerely,

Hui M. Huang

Good afternoon,

Attached pls find the petitions for new parking meter installation at various locations with no existing parking meters.

For signature validation at street segments with residential buildings, please note that a multi-residential building will be considered as one single commercial property, and ideally the property manager or management company should sign for it, if in support. Please also note that the petition for the Melrose segment along Fairfax High School, I listed the standard hours of operation for meters inside this PMZ. If you want to propose different hours of operation to accommodate school bell schedule, for example, please give me a specific modification so I can re-send the petition to you for signature.

Please review these petitions carefully for accuracy. If you need further discussion or have any questions/comments after review of the documents, please let me know. Thank you for your help.

[Project#16-0108, Melrose BID, TLP to new PMZ]

Sincerely,

Hui M. Huang

Thank you Hui...

We are anxious to get to work on this. In addition to myself, the Melrose BID's technical project manager will be Jeff Jacobberger, who is copied above. He will be following-up on the technical specifics. He'll get back to both of us as soon as possible. Thank you.
